Participants will earn Continuing Medical Education (CME) credits. The conference is open to anyone interested in scientific discussions on research and treatment of chronic kidney disease. The conference will feature a keynote address by Dr. Elizabeth Heubi, director of the UC Health and CCHMC clinical trials offices. Dr. Heubi will speak on the topic of the CCTST Research Ethics Brownbag Seminar on “Compensation: Ethics, Taxes and Compliance.”

Dr. Heubi will discuss the recent work exploring what the community thinks of emergency medicine. She will cover the tenets of exception from informed consent research and the impact of these tenets on research. The seminar will provide guidance, information, support, and a forum for discussion of his recent work exploring what the community thinks of emergency medicine.

The seminar will be led by Dr. Yuhang Zhang, pharmacy and dermatology, UC, and Dr. Yu Li, PhD, radiology, CCHMC. Dr. Zhang will cover the topic of the CCTST Research Ethics Brownbag Seminar on “Compensation: Ethics, Taxes and Compliance.”

Dr. Li will discuss the recent work exploring what the community thinks of emergency medicine. She will cover the tenets of exception from informed consent research and the impact of these tenets on research. The seminar will provide guidance, information, support, and a forum for discussion of his recent work exploring what the community thinks of emergency medicine.

New CTRC Director Named
Prasad Devarajan, MD, nephrology, CCHMC
Yuhang Zhang, pharmacy and dermatology, UC
Yu Li, PhD, radiology, CCHMC
Junior T1 principal investigators:
Charles Quinn, MD, MS, hematology, CCHMC
Robert McNamara, PhD, psychiatry, UC
Michael Jordan, MD, immunobiology, CCHMC
Pankaj Desai, PhD, pharmacy, UC
Hermine Brunner, MD, MSc, rheumatology, CCHMC
Raouf Amin, MD, pulmonary medicine, CCHMC
T1 principal investigators:
2012.
Awards are for one year starting July 1. T1 and innovative core awards are potentially renewable for one additional year. Junior T1 awards are for one year.
This was the fourth annual funding round of T1 grants, which expanded the highly successful Translational Research Initiative (TRI) at CCHMC to investigators across and beyond the university. Four of the 2012 TRI awards went to researchers in the Department of Obstetrics, Gynecology and Reproductive Sciences, two went to investigators in the Department of Neurology, and one each went to researchers in the Departments of Pediatrics, Internal Medicine, and Surgery.

The Pilot & Collaborative Studies (PCS) core of the CCTST announced $1.3 million in new funding for 2012. The Pilot & Collaborative Studies (PCS) core provides guidance, information, support, and a forum for discussion of his recent work exploring what the community thinks of emergency medicine.

For more information on the CCTST, please visit our website or call (513) 803-3511. To request an addition to the CCTST events calendar, please email us at cctstevents@uc.edu.

Links to Breast Cancer & the Environment Research Resources (NCRR), which was dissolved.
CCTST “T1” Awardees Announced
Yuhang Zhang, pharmacy and dermatology, UC
Yu Li, PhD, radiology, CCHMC
Junior T1 principal investigators:
Charles Quinn, MD, MS, hematology, CCHMC
Robert McNamara, PhD, psychiatry, UC
Michael Jordan, MD, immunobiology, CCHMC
Pankaj Desai, PhD, pharmacy, UC
Hermine Brunner, MD, MSc, rheumatology, CCHMC
Raouf Amin, MD, pulmonary medicine, CCHMC
T1 principal investigators:
2012. For more information, contact Elizabeth Heubi.
