All Aboard Career Development Awards Announcement

The CCTST Community Engagement core announces the launch of a new career development award series to support junior scientific workforce development in community-engaged research. The awards include the KL2 Research Scholar Award, the Career Development Award, and the Mentored Career Development Award, all sponsored by the University of Cincinnati Academic Health Center. Each award has a budget of up to $25,000, designed to support the development of the awardee’s career in community-engaged research. The awards are available to PI’s for research projects that have received a letter of support from the CCTST steering committee. Apply here.
