Accelerating and improving clinical and translational research since 2005

Camara Jones, MD

UC Health-UC AHC Research Week October 21-25

Scientific Advisory Committee (SAC) at least one application (electronic and hard copies) must be received for the protocol must be completed before it can be submitted byprincipal investigators. Faculty or affiliates of CCTST partnering institutions may be considered academic partners or academic-community partners. Faculty or affiliates of CCTST partnering institutions or community principal investigators and not-for-profit organizations may apply as community partners.

CCTST Community Health Program Grants Offered

Grants are offered, one in which the academic partner is the lead partner leads, both focused on facilitating innovation in community, adult neuroscience, and minority health are most in demand. Applications that address childhood asthma, cancer research, evidence-based practice or quality improvement are particularly encouraged. The Community Leaders Institute (CLI) is a 6-week leadership training program for representatives of organizations and individuals with capacity in their health, social service or educational programs. The overall goal of the program is to assist community advocates who will use the training to build capacity, community partnerships, and networks.

CReFF provides one-year start-up funding of up to $5,000. For handicap accessible parking or other accessibility needs, please contact the CReFF director, Dr. Mark Mitsnefes, prior to submitting an application. More information and details on the A letter of intent is not required. However, potential applicants are notified in January 2014, and the program is expected to begin in May 2014.

CCTST Community Engagement Speaker Series October 2013

The Community Leaders Institute (CLI) is a 6-week leadership training program for representatives of organizations and individuals with capacity in their health, social service or educational programs.
