CCTST Just-In-Time Core Grant Deadline July 1

The CCTST Just-In-Time (JIT) grant mechanism enables investigators to use participating UC or CCHMC core facilities to obtain critical data for submission of a competitive extramural proposal, patent application or commercialization agreement.

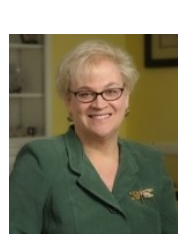

Live Microscopy Core

The next deadline is July 1, 2014. Investigators may apply for up to \$7,500 annually in support for core services that would directly facilitate the submission of a new or revised application for extramural funding. JIT funding must be spent within 6 months of award and within the fiscal year awarded (July 1, 2014-June 30, 2015).

Applications will be accepted from 80% or greater FTE faculty members in the Academic Health Center (AHC), including basic scientists, physicians, nurses, and other health care faculty with advanced degrees (MD, PhD, MD-PhD or equivalent). Labs/investigators that have received CCTST funding in the past 12 months are not eligible. Applicants must be CCTST members. [Join free of charge.](#)

For complete details and a list of participating cores, see the [JIT application instructions](#), visit the [CCTST website](#) or email [Bettie Durant](#). New cores are welcome to request eligibility for participation.

Major Changes to NIH Biosketch

Sally Rockey, PhD

Dr. Sally Rockey, NIH deputy director for extramural research, recently announced the rollout of major changes to the NIH biosketch format.

Currently undergoing a [second round of pilot tests](#), the new format will focus on "the magnitude and significance of the scientific advances associated with a researcher's discoveries and the specific role the researcher played in those findings," she wrote. "This change will help reviewers evaluate you not by where you've published or how many times, but instead by what you've accomplished."

All applications for funding in fiscal year 2016 and beyond are anticipated to require the new biosketch format ([see sample](#)). Additional details are [available here](#).

Design Thinking Research Awards Announced

Two proposals have been funded for Design Thinking Research Awards, which provide partial support for semester-long studio projects organized by the [Live Well Collaborative \(LWC\)](#) with UC design faculty and students to address healthcare challenges.

Summer semester projects and their principal investigators are:

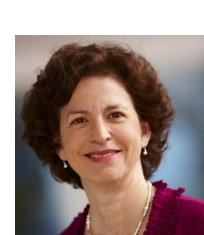

Development of a Novel Electronic Adherence Monitoring Device. Kevin Hommel, PhD, associate professor, behavioral medicine and clinical psychology, CCHMC.

Redesign of Primary Care Waiting Rooms as a Model for Community-Clinical Linkages. Robert Kahn, MD, MPH, associate director, general and community pediatrics, CCHMC.

Established by UC and Procter & Gamble (P&G) in 2007, the non-profit LWC specializes in research and development of products and services for *Living Well* across the lifespan. It is built around the open innovation model for moving translational research into the marketplace.

More information on the Design Thinking Research Awards is [available here](#).

SAVE THE DATE: CCTST Grand Rounds July 18

Marilyn Schapira, MD

CCTST Grand Rounds on Friday, July 18 from 12-1 PM will feature **Marilyn M. Schapira, MD, MPH**, co-director, Cancer Control and Outcomes Program, Abramson Cancer Center, Perelman School of Medicine, University of Pennsylvania. Her research focuses on risk communication and medical decision-making.

The session will be held in Room 3351 of the UC Medical Sciences Building (MSB). Lunch will be available to CCTST members who pre-register, and CME credit is planned. Additional details will be announced soon.

Need assistance with your clinical/translational research project? [CCTST membership](#) (free of charge) is required for service. We now have over **2,610** members (and counting!).

Already a member? Please [log in from our home page](#) and click "Request Assistance with Your Research Project." The CCTST provides up to 10 hours of support per investigator per grant year (April 1-March 31), funded by the CTSA grant; 1 Research Central hour equals 1 hour of doctoral-level methodologic support or 2 hours of master's-level support. Additional hours, if needed, are billed at established rates.

What does the CCTST do?

Established in 2005, the CCTST provides guidance, information, support, resources and training to researchers across and beyond the Academic Health Center, with the support of an NIH Clinical and Translational Science Award (CTSA). Whether you're at UC, Cincinnati Children's, the Cincinnati VA Medical Center, UC Medical Center, or in the Greater Cincinnati community, we're here to help.

Calendar of Events

[click links for details](#)

June 12, 1-2 PM: [Translational Cancer Research Seminar Series](#). *Shortening the Timeline for Cancer Drug Discovery.* **James Doroshow, MD**, National Cancer Institute. CCHMC Research Auditorium, Loc. R, 3381.

June 13, 8 AM-3 PM: [Sports Concussion Clinical Research Initiative – 3rd Session](#). Attendance at previous sessions not required. E-351 UC MSB.

June 16, 11 AM-12 PM: [Cancer Biology Seminar](#). *MicroRNA/Epigenetic Regulation and Translational Research in Acute Myeloid Leukemia.* **Jianjun Chen, PhD**, University of Chicago. Rieveschl Auditorium, Vontz Center, UC College of Medicine.

June 17, 7:30-9:00 PM: [Medical Warriors & Resistors During the Holocaust: A Study of Moral Courage](#). **Cheyenne Martin, PhD, RN**, University of Texas Medical Branch at Galveston. Pleasant Ridge Presbyterian Church, 5950 Montgomery Rd.

June 17-20: [2014 Neurobiology of Stress Workshop](#). Current findings on the impact of stress on physiology, brain and behavior. UC Kingsgate Marriott Conference Center.

July 1, 11:30 AM-1 PM: [Technology Commercialization Workshop Series](#). Session 2 of 3: *Pathways to Development*. E-151 UC MSB.

July 18, 12-1 PM: [CCTST Grand Rounds](#). **Marilyn Schapira, MD, MPH**, University of Pennsylvania. 3351 UC MSB. See article below left.

Aug. 1: [UC Sports Neuroscience Initiative conference](#). Open to UC and UC-affiliated faculty, goal is to encourage cross-campus, multidisciplinary collaborations. UC MSB.

Sept. 12, 8 AM-1 PM: [2nd Annual Mentorship Symposium](#). Sponsored by the CCHMC Office for Faculty Development, Center for Professional Excellence, UC Colleges of Medicine and Nursing, and the CCTST. CCHMC Location S, 1.204.

Sept. 12, all day: [16th Annual Human Subject Protection Conference](#), *Don't Stop Believin'*. Sponsored by Schulman Associates IRB, UC, UK, and CCHMC. N. Ky. Convention Center, Covington. Details available soon.

Oct. 16, 8:30 AM-12:30 PM: [CCHMC Shared Facilities Day](#). Discover what CCHMC shared facilities can do for your research. Loc. S, 1.203-204.
