"Intestinal microbiota in non-alcoholic fatty liver disease: Is there a link?"

Join us for the final Hot Topics of the year! Dr. Marialena Mouzaki, whose area of research centers on the microbiome in liver disease, will:

- Illustrate the evidence of dysbiosis in NAFLD;
- Assemble the evidence that implicates microbiota in the pathogenesis of hepatic steatosis, inflammation and fibrosis; and
- Discuss the role of intestinal microbiota in treating NAFLD.

Marialena Mouzaki, MD
Associate Professor
Gastroenterology, Hepatology, and Nutrition
Cincinnati Children’s Hospital Medical Center

Date: Friday, November 10, 2017
Time: Noon – 1pm
Location: S1.203 (Children’s Hospital)*

This seminar provides 1 CEU for dietitians, diet techs, and other health professionals.
