

**PI- Type of Submission-
New/Renewal/Resubmit-**

Special Submission Requirements-

BLR&D, CSR&D and SPiRE DEADLINES for FALL 2016 VA Merit Submission

Please remember the following formatting rules when creating the below documents (except where noted otherwise)....

- Must use an **Arial, Helvetica, Palatino Linotype, or Georgia** typeface, a black font color, and a font size of **11 points or larger**.
- Use **at least one-half inch margins** (top, bottom, left, and right) for all pages.
- **NO information should appear in the margins**, including the PI's name or page numbers, with the exception of the following:
 - The use of the vertical bar drawn in the margin is allowed, provided that:
 - the changes in text are also indicated as instructed on page I-23 of the revised VA SF424 Application Guide;
 - any issues with margins that arise from the use of the vertical bar are the responsibility of the PD/PI and will not be viewed as grounds

DUE Tuesday –AUGUST 16, 2016 – 8AM

- Title (**limit of 200 characters with spaces**)

- Mandatory Summary Budget Worksheet (Sent Via Email with this form)
- Budget Justification (**No page limit**)
- Abstract (**40 line limit**) this can be in draft format at this time.
- Project Narrative (relevance to VA) – **10 line limit**
- Facilities and Other Resources **no page limit**
- Equipment **no page limit**
- 08_VA_Director_Letter (Stephanie will prepare and send to you for review, prior to obtaining signatures)
- 08b_VA_Letters (Stephanie will prepare the consolidated document based on letters you provide)
- 09_VA_Checklist (Stephanie will prepare)
- Letters of Support from all key personnel (**no page limit-font requirements DO NOT APPLY**)
- Bio-sketches on all key personnel (must be on NEW NIH-VA approved format-**not to exceed 5 pages**)
- Other Support ***“This information is required at the time of application submission for all Senior/Key Persons” - no page limit***

Do not confuse “Research Support” with “Other Support.” Although they sound similar, these parts of the application are very different.

“Research Support” (Section D of the Biosketch) highlights your accomplishments, and those of your colleagues, as scientists. This information will be used by the reviewers in the assessment of each individual’s qualifications for a specific role in the proposed project, as well as to evaluate the overall qualifications of the research team.

“Other Support” information (provided in the Senior/Key Person Profile) is required to check that the proposed research has not already been funded by another Federal agency or private foundation.

DUE Thursday- September 1, 2016 – 8AM

- All final documents
- 01_VA_Intro (**3 page limit** *needed for re-submissions ONLY)
- 02_VA_Specific_Aims (**1 page limit**)
- 02b_VA_Research_Plan – **14 page limit**
- 03_VA_Progress_Report **5 page limit** *needed for renewal apps **OR recently funded merits ONLY.**
- 04-VA_Human_Subjects **no page limit**
- 05_VA_Animals **no page limit**
- Bibliography and References Cited – **4 page limit**

Appendix Sheets (the following appendices are MANDATORY for inclusion.....additional appendices can be included, **as allowed per the SF424**)

- 10_VA_Appendix_1_Summary.pdf
- 11_VA_Appendix_2_Abbreviations.pdf
- 12_VA_Appendix_3_Financial_Disclosure.pdf
- 13_VA_Appendix_4_SRG_Request.pdf
- 14_VA_Appendix_5_Data_Plan.pdf

Please reference your specific RFA for any additional requirements for your application!!!

Feel free to contact me with any questions!
Thanks!

Part I - Overview Information

Department of Veterans Affairs

Participating Organizations

Veterans Health Administration, Office of Research and Development (VA-ORD)

Forms of Participating Organizations

Biomedical Laboratory Research and Development (BLR&D) Service, VA-ORD

Title

BLR&D Merit Review Award (Parent IO1)

Announcement Type

Reissue of BX-15-001

Update: Revised **February 16, 2016**

Summary of Changes Incorporated into this Revision:

- Hyperlinks now direct the applicant to information and resources whenever possible.
 - [Blue hyperlinks](#) redirect the applicant to other sites within this document and to outside information that is accessible to the public.
 - [Red hyperlinks](#) are only accessible using the VA intranet environment.
- The policy on use of URLs in an application has been updated (Section 4).
- Updated RFA specific instructions for Appendices (Section 4, Table 2).
- A summary sheet of appendix items is now a required attachment (Section 4, Table 2).
- All Merit Award applications now require a Data Management and Access Plan as an appendix (Section 4, Table 2; Section 5).
- There is new guidance for Progress Reports that supersedes the SF424 guidance (Section 4, Table 2).
- R&R Budget Form instructions have been updated (Section 4).
- **[02/16/2016]** Corrected typo in file name for Data Management and Access Plan (Section 4, Table 2).

Request for Applications (RFA) Number: BX-16-001

Key Dates

Release/Posted Date: February 1, 2016

Letters of Intent Receipt Date(s): Not Applicable

Application Deadlines, Submission, Peer Review, and Start Dates: [See Table 3.](#)

Expiration Date: December 31, 2016

Application Instructions: Applications submitted in response to this RFA must be submitted electronically to Grants.gov using the VA SF424 Research and Related (R&R) Forms (VA-SF424) as described in the [SF424 \(R&R\) Application Guide for VA-ORD \(VA-SF424 AG\).](#)

This RFA must be used in conjunction with the VA version of the Application Guide SF424 (R&R) available on the [VA-ORD Intranet site](#). The instructions in this RFA may differ from, and supersede, the general instructions contained in the [VA-SF424 AG](#).

2. Administrative and National Policy Requirements

[Section VII. Agency Contacts](#)

1. Scientific/Research Contacts
2. Financial Management Contact

Part II - Full Text of Announcement

Section I. Funding Opportunity Description

1. Research Objectives

BLR&D funds preclinical biomedical and behavioral studies of disorders and diseases of importance to the health of Veterans. The BLR&D purview includes *in vitro* and *in vivo* studies using tissue cultures, animal models, or human biological samples collected using minimally invasive procedures (blood, urine, buccal swabs) or from tissues acquired without direct contact with subjects (e.g., from tissue banks or pathology material). The VA will not fund studies of human fetal tissue. Applications that seek to administer surveys or questionnaires (e.g. new clinical data collection), or perform medical procedures and treatments (including biopsies) or observational studies should be submitted to the Clinical Sciences R&D Service (CSR&D) RFAs.

BLR&D applicants are encouraged to submit innovative and clinically relevant research projects with the potential to lead to significant advances in healthcare for Veterans. Priority research areas of specific interest to BLR&D include (but are not limited to):

- Posttraumatic stress disorder
- Suicide prevention research (with emphasis on biological markers)
- Modifiable risk factors (e.g., smoking, substance abuse)
- Military service or deployment-related occupational exposures
- Women Veteran's health
- Genomic and personalized/precision medicine
- Pain and neurological disorders
- Metabolic disorder/diabetes

Section II. Award Information

1. Mechanism of Support

This RFA will use the VA Merit Review Award (I01) mechanism for investigator-initiated VA research. The Merit Review Award Program is an intramural funding mechanism to support investigator-initiated research conducted by eligible VA investigators at VA Medical Centers (VAMCs) or VA-approved sites. Merit Review Awards are BLR&D's principal funding mechanism for preclinical biomedical and behavioral studies of disorders and diseases of importance to the health of Veterans.

Applications electronically submitted to BLR&D through [Grants.gov](https://www.grants.gov) will be peer-reviewed by a Scientific Review Group (SRG) to provide the Director, BLR&D with an evaluation of the scientific merit of the proposed research including recommendations on budgets, funding durations, and potential ethical concerns. All funding decisions are made by the Director, BLR&D.

Before funds are released, all applicable regulatory and research compliance approvals must be obtained locally. The "Just In Time" (JIT) system requires the local assurance forms to ensure all VA regulations and policies are met. All JIT requirements must be completed within 180 days of selection to ensure availability of funding. All Specific Aims of an application must be able to be cleared in JIT. If a portion of the application is not ready for JIT clearance, the funding decision may be rescinded; partial funding of an application will not be considered.

2. Application Types Allowed

New: Proposals that have not been previously reviewed or funded by BLR&D under this RFA will be accepted as “new” in response to this RFA.

Resubmissions: Submission of up to two revised applications (resubmissions) is allowed if the initial submission is not selected for funding. All resubmission applications must include a brief Introduction that addresses the concerns raised in the previous review. If an application is not funded after two resubmissions it is not eligible to receive funding and any new submission by the PD/PI must contain significantly revised Specific Aims. “New” applications submitted without significantly revised Specific Aims will be withdrawn from review.

Renewals: Funded Merit Review Awards can be renewed by competitive application for an additional project period of up to 4 years. If three attempts to renew an application do not result in a decision to fund, a “New” application must then be submitted.

Refer to the [VA -SF424 AG](#) for guidance on how to fill out the VA-SF424 Cover Form for each application type. *Note: Resubmitted, renewal applications should be marked as “Resubmission” in Box 8 of the SF424 (R&R) Form.*

3. Multiple Awards and Submissions

An investigator may submit concurrent applications to more than one BLR&D RFA. An investigator may not be a PD/PI (either Contact PD/PI or one of multiple PD/PIs) for more than one application to the same RFA per review cycle and an investigator may only have one funded project for each RFA. An investigator may submit applications to a maximum of three RFAs in any given review cycle (combined submissions to BLR&D and/or CSR&D). Concurrent awards for supporting multiple projects under different RFAs will only be considered in unusual cases such as exceptionally meritorious research that addresses high priority research areas and current programmatic needs.

Submission of multiple applications with similar subject matter to different RFAs may result in the applications being assigned to the same SRG; if this occurs BLR&D will not entertain requests to move one of the applications to a different SRG.

4. Funds Available

Merit Review Award Budget Cap: The recurring (annual) budget may not exceed \$150,000 per year. The first year budget may include up to an additional \$50,000 for equipment and other startup costs (for a total year 1 budget cap of \$200,000). The salary for a non-clinician contact PD/PI identified in Box 14 of the SF424 (R&R) Cover Form is excluded from this cap. In an application with multiple PD/PIs, only the Contact PD/PI may have their salary excluded from this cap. A Merit Review Award budget must request at least \$50,000 per year.

Duration of Merit Review Awards: Merit Review Awards have durations of two to four years.

Exceptions to the Budget Cap and/or Duration: Applications may only exceed the budget and duration requirements if a copy of the letter of approval for a waiver is included in the Letters of Support. Rare exceptions to the budget cap and/or maximum duration may be granted prior to application submission for fully justified and compelling circumstances. [Waiver requests](#) must be submitted by the local R&D Office to vhacoblcsrdrev@va.gov.

5. Cost Sharing or Matching Funds

Not Applicable

6. Location of Research Space

All performance sites (VA and non-VA) must be included in the Project/Performance Site Locations Form.

It is expected that PD/PIs will perform funded research within a VA facility or VA-leased space controlled by them. If any of the proposed work will be carried out in non-VA space controlled by a PD/PI or other VA investigator, a waiver to perform the research off-site must be obtained prior to submitting the application. Work performed in a non-VA collaborator's off-site laboratory or off-site Core Facility does not require an off-site research waiver, except when a VA investigator is the Core Facility Director. A copy of the approval letter for the off-site waiver must be included in the Letters of Support attachment (refer to [VHA Handbook 1200.16](#)).

7. Duplicate Submissions

No portion of the proposed research may be simultaneously submitted to more than one RFA in the same review cycle. Applications submitted to BLR&D should not be submitted to any other VA-ORD Service. In cases where it is not clear which Service's purview is the best fit for a particular application, the VAMC research office should seek advice from ORD program staff about where to submit.

Section III. Eligibility Information

1. Eligible Institutions

Applications may be submitted from any VAMC with an active Federalwide Assurance (FWA) of compliance with the US federal regulations for the protection of human subjects in research. A letter of support for the application from the Medical Center Director must be included as a separate attachment.

2. Eligible Individuals

The Merit Review Award Program is an intramural program to fund research conducted by VA-salaried investigators at VAMCs or VA-approved sites. A PD/PI shall hold an MD, PhD, or equivalent doctoral degree in a medical, biological, or behavioral science field. All PD/PIs must have a VA paid appointment of at least 25 hours per week (5/8ths) to receive ORD research funding ([VHA Handbook 1200.15](#)). Contract clinicians are not VA employees. The VA employment status of each PD/PI must be indicated in the application. If a clinician PD/PI does not have a current, 5/8ths VA paid appointment then the letter of support from the Medical

Center Director must include a commitment to offer the PD/PI a 5/8ths (or greater) appointment at the VAMC if the application is approved for funding.

Prior to submission, all new, non-clinician PD/PIs must apply for eligibility and be accepted into the BLR&D/CSR&D intramural research program. For purposes of eligibility, a clinician is defined as a licensed practitioner with a doctoral degree (MD, DO, DDS, PhD, etc). It is assumed, but not required, that he/she treats patients at the VAMC. All others are considered as non-clinicians. Eligibility to submit applications to Health Services Research and Development (HSR&D) or Rehabilitation Research and Development (RR&D) Services of VA-ORD or participation in a Cooperative Studies Program (CSP) study does not automatically confer eligibility to submit a Merit Review Award application to the BLR&D Service. However, there is reciprocity for eligibility between BLR&D and CSR&D Services. For more information see the [BLR&D/CSR&D Funding Eligibility Guidelines](#).

VA Career Development Awardees: Investigators with a VA Career Development Award (CDA) may submit an initial Merit Review Award application during the last two years of their CDA award. If needed, up to 2 additional applications (revised or new) may be submitted during the following 3 consecutive review cycles. After the 3rd submission or 3rd consecutive review cycle after the initial submission, whichever comes first, applicants need to follow the normal eligibility rules for submitting applications for Merit Review award funding.

Multiple PD/PIs: The “Contact” PD/PI identified in the VA-SF424 Cover Form will be responsible for all communication between the PD/PIs and VA-ORD. Only individuals assigned the PD/PI role in the Budget Form and the Key Personnel Form are considered as PD/PIs. All PD/PIs must meet the eligibility requirements described above. The inclusion of a non-eligible Co-PI/MPI may lead to the administrative withdrawal of the application. The justification for inclusion of more than one PD/PI must be included in a Multiple PD/PI Leadership Plan and each of the multiple PD/PIs must be assigned the PD/PI role. Co-PD/PI role is no longer recognized by eRA or VA-ORD.

Each PD/PI listed on an application will be considered to have made their one allowable submission to this RFA. Reviewers may include the structure and governance of the PD/PI leadership team, as well as the knowledge, skills, and experience of the individual PD/PIs, into their assessment of the application. Multiple PD/PIs on a project share the authority and responsibility for leading and directing the project intellectually, financially, and logistically. Each PD/PI is responsible and accountable for the proper conduct of the approved protocol, including the submission of all required reports.

Section IV. Application and Submission Information

Several registration processes must be completed by the local R&D Service before submission of an electronic application (see Section 2.2 of the [VA-SF424 AG](#)). Applications must be submitted to Grants.gov by the local research signing official (SO). Applicants are highly encouraged to start the submission process well in advance of the submission deadline to ensure it passes the validations performed at Grants.gov and the eRA.

1. Request Application Information

Applicants must download the specific VA-SF424 (R&R) application forms for this RFA through [Grants.gov/Apply](#). Click on the link to “Download a Grant Application Package” (Step 1) and then enter the RFA number from page 1 of this announcement in the middle box

labeled “Funding Opportunity Number.” VA-ORD RFA Numbers cannot be found by using the Grants.gov search engine (Search Grants). This forms package must be used to submit an application to this solicitation. Detailed instructions for this submission are provided in Part 1, Section 2 of the VA-SF424 AG.

Additional resources for applicants are available from Grants.gov at:
<http://www.grants.gov/web/grants/applicants/applicant-resources.html>

It is recommended that you use the latest version of Adobe for your submission; however the compatibility of any Adobe version may be verified at:
<http://www.grants.gov/web/grants/applicants/adobe-software-compatibility.html>

For Assistance downloading this or any Grants.gov application package, please contact Grants.gov Customer Support at: <http://www.grants.gov/web/grants/support.html>

2. Content and Form of Application Submission

Prepare all applications using the [VA-SF424 \(R &R\) application forms](#) for this RFA in accordance with the VA-SF424 AG, which must be followed because specific file names are required in order to upload the components of your application into the [grants.gov](#) system. A summary of the main components required for this application is shown below in Table 1. Table 2 below contains instructions for SF424 Research and Related Forms specific to this RFA. Instructions in Table 2 are in addition to, or supersede, instructions in the [VA-SF424 AG](#) as appropriate.

Use of hyperlinks: All applications must be self-contained (i.e., without the use of URLs/hyperlinks), within specified page limits. The use of URLs/hyperlinks is prohibited except in the Biographical Sketch. Use of URLs/hyperlinks in the Introduction to Revised Application, Specific Aims, or Research Plan will cause the application to be withdrawn from review. Use of URLs/hyperlinks in other sections of the application will cause the application to be withdrawn from review, if found to be egregious and violate the stated page limited sections by providing additional information. Note that reviewers are under no obligation to view the Internet sites, and are cautioned that they should not directly access an Internet site as it could compromise their anonymity. The inclusion of links to videos within an application is not acceptable and will cause the application to be withdrawn from review.

Table 1. Summary of Required Forms and Attachments

| Forms, Attachments, and Templates with Size Limits as Applicable | Required When? | VA-SF424 Instructions | |
|---|-----------------------|------------------------------|--|
| SF424 (R&R) Form | Always | Section 4.2 | |
| Project/Performance Site Locations Form | Always | Section 4.3 | |
| Other Project Information Form: | | | |
| Project Summary/Abstract (40 lines of text) | Always | Section 4.4 | |
| Project Narrative (10 lines of text) | Always | | |
| Bibliography & References Cited (4 page limit) | Always | | |
| Facilities & Other Resources | Always | | |
| Equipment | Always | | |
| Other Attachments: | | | |
| 1. Introduction to Revised Application (3 page limit) | Resubmission | | |
| 2. Specific Aims (1 page limit) | Always | | |
| 2a. Research Plan (14 page limit)* | Always | | |
| 2b. VA Career Plan | Never Submit | | |
| 2c. Mentoring Plan | Never Submit | | |
| 3. Progress Report (5 page limit)* | Renewal† | | |
| 4. Human Subjects | If Applicable | | |
| 5. Vertebrate Animals | If Applicable | | |
| 6. Multiple PD/PI Leadership Plan | If Applicable | | |
| 7. Consortium/Contractual Arrangements | If Applicable | | |
| 8. Signed Directors Letter | Always | | |
| 8a. R&D Committee Letter | Never Submit | | |
| 8b. Letters of Support | If Applicable | | |
| 9. Electronic Merit Review Checklist | Always | | |
| Appendices:* | | | |

| Sf424 (R&R) Senior / Key Person Profile(s) | Always | Section 4.5 | |
| SF424 (R&R) Budget | Always | Section 4.7 | |

* These sections have special instructions for this RFA that are in addition to or supersede instructions in the VA SF424. See Table 2 below.

† New applications from previous awardees may also require a progress report. See Table 2 below.

Table 2. RFA Specific Instructions for VA SF424 Forms and Attachments

| Form/Attachment Name Page Limit Required File Name | Instructions |
|---|--|
| <p>2a. Research Plan 14 Page Limit <i>02a_VA_Research_Plan.pdf</i></p> | <p>The Research Plan must include sufficient information for evaluation of the project, independent of any other document (e.g., previous application). Be specific and informative.</p> <p>In general, the Research Plan should include the following sections:</p> <p>Background and Significance Briefly sketch the background leading to the present application, critically evaluate existing knowledge (e.g., published literature, clinical trials, etc.), and specify the gaps that the project is intended to fill. State concisely the importance and <u>Veteran health relevance</u> of the research described in this application. Relate the specific aims to the broad, long-term objective of improving Veteran health. If the aims of the application are achieved, state how scientific knowledge or clinical practice will be advanced. Additionally, describe the effect of these studies on the concepts, methods, technologies, treatments, services, or preventative interventions that drive this field.</p> <p>Preliminary Studies Use this section to provide an account of the PD/PI's preliminary studies pertinent to this application, including his/her preliminary experience with and outreach to the proposed racial/ethnic group members, when relevant. This information will also help to establish the experience and competence of the investigator to pursue the proposed project. For epidemiology research applications, pilot data demonstrating the feasibility of obtaining samples, recruiting subjects, and/or data needed for the project must be included, if applicable.</p> <p>Research Design and Methods Describe the research design conceptual or clinical framework, procedures, and analyses to be used to accomplish the specific aims of the project. Include how the data will be collected, analyzed, and interpreted. Describe any new methodology and its advantage over existing methodologies. Describe any novel concepts, approaches, tools, or technologies for the proposed studies. Discuss the potential difficulties and limitations of the proposed procedures and alternative approaches to achieve the aims. As part of this section, provide a tentative sequence or timetable for the project. Point out any procedures,</p> |

| Form/Attachment Name Page Limit Required File Name | Instructions |
|---|--|
| | <p>situations, or materials that may be hazardous to personnel and the precautions to be exercised.</p> <p>All animal models, cell lines and/or sources of tissue to be used must be clearly identified and described in this section.</p> <p><u>Do not</u> repeat the Specific Aims in the Research Plan.</p> <p><u>Do not</u> include the Progress Report for renewal applications in the Research Plan.</p> |
| <p>3. Progress Report 5 Page Limit <i>03_VA_Prog_Report_Pubs.pdf</i></p> | <p>Progress Reports are required for all renewal applications. <u>In addition</u>, VA Career Development and Merit Review awardees who are submitting a ‘New’ application are required to submit a progress report for their previous award.</p> <p>Provide the beginning and ending dates for the period covered since the project was last reviewed competitively. Summarize the previous application’s specific aims and the importance of the findings. Provide a succinct account of published and unpublished results, indicating progress toward their achievement. Provide a list of titles and complete citations for all publications, manuscripts accepted for publication, patents, and other printed materials that have resulted from the project since it was last reviewed competitively.</p> <p><u>Do not</u> include URLs or PMC submission identification numbers for publicly available citations; copies of these publications are not accepted as appendix material.</p> <p><u>Do not</u> include unpublished theses or abstracts/manuscripts submitted, but not accepted for publication.</p> |
| <p>10, 11, 12... Appendices <i>10_VA_Appendix_1.pdf</i> <i>11_VA_Appendix_2.pdf</i> <i>12_VA_Appendix_3.pdf</i> (additional attachments as needed: same file name format)</p> | <p>Appendices should be named using the following convention in the following order:</p> <ul style="list-style-type: none"> • Attachment number, starting with 10, then 11, 12, etc. • Underscore • The phrase “VA_Appendix” • Underscore • Appendix number starting with 1, then 2, 3, etc. • Underscore • Brief description of the contents (e.g., Abbreviations, Accepted_Manuscripts, Patents) • “.pdf” <p>The first appendix should be a summary sheet listing all of</p> |

| Form/Attachment Name Page Limit Required File Name | Instructions |
|---|--|
| | <p>the items included in the appendices; it should be named: “10_VA_Appendix_1_Summary.pdf.”</p> <p>The second appendix should be the alphabetized list of abbreviations used in the application; it should be named: “11_VA_Appendix_2_Abbreviations.pdf.”</p> <p>The third appendix should be a Financial Disclosure Statement; it should be named: “12_VA_Appendix_3_Financial_Disclosure.pdf.”</p> <p>Provide a clear statement disclosing any financial conflict of interest that each PD/PI may have with the proposed research (e.g., purchase of a device or specialized compound from a company in which the PD/PI has a financial interest). VA researchers with outside consulting, employment, or royalty payment opportunities should disclose those potential opportunities to their local VA facility to ensure compliance with the facility policy on financial conflict of interest.</p> <p>A single page containing “N/A” or “No Disclosures” should be used if there is nothing to disclose.</p> <p>The fourth appendix should be a brief letter stating what panel the PD/PI would like the application assigned to; it should be named: “13_VA_Appendix_4_SRG_Request.pdf”</p> <p>See the BL/CSR&D Merit Review Panel Purview document for a description of the purview of each of the review panels.</p> <p>The fifth appendix should be a data management plan; it should be named: “14_VA_Appendix_5_Data_Plan.pdf”</p> <p>Investigators are expected to include a brief description of how final research data and results will be shared (See Section IV. Application and Submission Information).</p> <p>Additional appendices can be added using the file name conventions described above. Please refer to the SF424 AG for guidance on allowable appendix attachments.</p> |

Summary Budget Worksheet and R&R Budget Form

Budget Guidance

See the VA Application Guide SF424 (R&R), Section 4.7 Summary Budget Worksheet and R&R Budget Form for guidance on budget content for Sections A-K.

Personnel (section A): For a non-clinician PD/PI enter the calendar months that indicate the actual effort that the investigator will expend for the research described in this application only; salary consistent with their total VA effort may be requested. Describe the PD/PI's contribution to the proposed research, as well as the other activities comprising their total VA effort, in the Budget Justification section.

If the PD/PI is a Research Career Scientist, enter the calendar months that indicate the actual effort that the investigator will expend for the proposed research, but do not include salary in the budget. In the Budget Justification section discuss the investigator's contribution to the proposed research only.

Salary support may be requested only for activities that are uncompensated from other sources, such as the academic affiliate or other funding agencies. Any differences in the calendar months effort for the work proposed and total VA effort (salary support) must be fully described in the budget justification.

Personnel (Section B): The last row of Section B should include all VA personnel involved in the project, except the PD/PI named in Section A.

Applications with Multiple PD/PIs: When multiple PD/PIs are proposed, only the Contact PD/PI (identified in Box 14 of the SF424 (R&R) Cover Form) is eligible to receive salary above the budget cap. Identification of multiple PD/PIs may not be used to exceed budget caps. Cost of living adjustments for personnel other than contact PD/PI may not cause the budget to exceed the stated cap.

Other Direct Costs (Section F): All Other Direct Costs described below should be totaled and entered in Section F, Line 8 of the R&R Budget Form. Leave all other fields blank in Section F (1-7, 9, and 10).

Equipment Description: Start-up Costs (maximum of \$50,000, excluded from the \$150,000 budget cap in Year 1) are intended to support the one-time purchase of non-recurring items. Start-up costs are limited to items of major equipment (> \$5,000 per item), small equipment (< \$5,000 per item), or the one-time purchase of transgenic mice for breeding. Start-up costs should be included on the equipment line of the Summary Budget Worksheet and in Section F, Line 8 of the R&R Budget Form.

Start-up costs may not be used for salaries, consumables unique to the first budget period, or advance purchase of recurring items (e.g., experimental animals, glassware, electrodes, antibodies, or tissue culture supplies) to be used beyond the first budget period. Only start-up costs may be used to purchase items of major equipment (> \$5,000 per item). Start-up funds and recurring budget may not be combined to purchase additional or more expensive equipment.

In addition to the required budget justification for equipment, include a separate section for start-up funds requested. Include an itemized list of all items to be purchased with start-up funds, a justification for each item in the list, and the total amount of start-up funds.

Budgets requesting start-up costs that do not meet the above definition will be considered to be in excess of the \$150,000 recurring budget cap and the application may not be accepted for review.

Travel: Travel costs for presenting research findings at scientific meetings may not exceed \$2000 per year (total, not per individual). Travel costs required to perform the proposed specific aims are permitted if clearly justified in the budget justification section.

Materials and Supplies (item 1): Small equipment items (<\$5,000 per item) may be requested as either Materials and Supplies or start-up costs. If requested as start-up costs, include on the equipment line of the Summary Budget Worksheet and Section F, Line 8 of the R&R Budget Form.

3. Submission Dates and Times

Deadlines: Table 3 below contains deadlines for Merit Review Award Program applications.

Renewal of Awards: Submission of renewal applications for review one year prior to the award's end date is encouraged. For example, if the award ends September 30th, the renewal application is normally due for the Spring review cycle. This allows the PD/PI to submit an application and one revision (if the renewal is not funded) without experiencing a funding gap. If the submission is approved for funding, the PD/PI may opt for one of the following scenarios: delay the new project start date until the conclusion of the currently funded project; or start the new project at the earliest possible start date, terminating the currently funded project before its conclusion.

Submitting renewal applications more than 1 year prior to the end date is discouraged. If the early submission is approved for funding the PD/PI will have two options: (1) replace the ongoing project with the new Award, losing the remaining time on the currently funded project; or (2) reject the new award and continue the ongoing project. Delaying the start of the new award until the conclusion of the currently funded project is not an option.

3.A. Submission, Review, and Anticipated Start Dates

All new or changed/corrected applications must be submitted and accepted (error-free) in Grants.gov on or before 6 p.m. (local time) of the Last Possible Submission Date (submission deadline) in Table 3.

NOTE: Applications accepted by eRA Commons with no errors (with or without warnings) are provided a two-business day examination window to check for errors. The application is automatically verified on the third business day if it is not withdrawn by the SO during the examination window.

Once verified, an application is considered final and no other version will be accepted for review. It is the responsibility of the PD/PI and AOR/SO to check for errors during the examination window.

Table 3. Standard Dates for Application Deadlines for 2016

| SUBMISSION CYCLES: | Spring 2016 | Fall 2016 |
|---|---|---|
| Deadline for requests for Eligibility and/or Acceptance into the Non-Clinician Intramural Research Program | December 1 | June 1 |
| Deadline for waiver requests (offsite research or budget cap) | December 1 | June 1 |
| First day to submit applications to Grants.gov | February 8 | August 8 |
| Deadline to submit to Grants.gov (After this date the full two-day correction window cannot be used.) | March 8 | September 9 |
| <p>Last Possible Submission Date (to Grants.gov)</p> <p>WARNING: If you submit an application on the Last Possible Submission Date and errors are identified by either Grants.gov or eRA Commons there may not be enough time to fix the errors, resubmit, and have the application received and verified by eRA.</p> <p>If your application is accepted by eRA with no errors, <u>do not withdraw</u> the application during the two-business day examination window unless there is sufficient time to resubmit a changed/corrected application by the submission deadline.</p> <p>Changed/Corrected applications submitted after the Last Possible Submission Date <u>will not</u> be accepted for review.</p> | <p>March 10</p> <p>6:00 pm local time</p> | <p>September 13</p> <p>6:00 pm local time</p> |
| <p>Verification Deadline (in eRA)</p> <p><u>Once verified, an application is considered final and no other version will be accepted for review.</u> ‡</p> | March 15 | September 15 |
| Review and Award Cycles: | CYCLE I (Spring) | CYCLE II (Fall) |
| Scientific Merit Review | May - June | November-December |
| Administrative Review | July - August | January - February |
| Earliest Project Start Date [§] | October 1 | April 1 |

‡Verification occurs two business days after receipt of an application with no errors; warnings are inherent to the current eRA system and will not hinder application acceptance or review.

§BLR&D may not always be able to honor the requested start date of an application; therefore, applicants should make no commitments or obligations until confirmation of the start date by the awarding service.

3.A.1. Letter of Intent

A letter of intent is not required for this funding opportunity.

3.B. Application Processing

The local Research and Development Office (ACOS and/or AO) is responsible for submitting a notification of any system errors to the eRA mailbox (rd-era@va.gov) prior to the submission deadline (for Grants.gov issues) or validation deadline (for eRA issues).

Upon receipt, applications will be evaluated for completeness. Incomplete applications will not be reviewed. No additional or replacement information will be accepted after submission of the application unless requested by the Program Review staff. The only exceptions are official letters of acceptance for publication of manuscripts submitted by the PD/PI. These must be sent by e-mail to the Review Mailbox (vhacoblcsrdrev@va.gov).

4. Data Management and Access Plan (DMAP)

Provide a DMAP that describes how and where data resulting from the research will be made available to the public. The plan must:

- a) Specifically include how and where the final research datasets underlying scientific publications will be made available for discovery, retrieval, and analysis and what data will be available.
- b) Include provisions for long-term preservation of and access to the scientific data resulting from the research or explaining why such access cannot be provided.
- c) Include an explanation of how data sharing and preservation will enable validation of results, or how results could be validated if data are not to be shared or preserved.
- d) As relevant, describe the mechanisms to ensure the protection of personal privacy of research subjects, the confidentiality of individually identifiable private information, and the secure maintenance of proprietary data and information. The plan for sharing research data should be consistent with other aspects of the application such as the Protection of Human Subjects Section.

Section V. Application Review Information

An overview of the Merit Review process is described in Part 1, Section 6 of the [VA-SF424 AG](#). The following review criteria described below will be considered in the review process for applications submitted to this RFA.

1. Review Criteria

Research Project Evaluation Criteria

Significance: Does the proposed study address an important problem or critical knowledge gap in the field and specifically to the Veteran population? How do the research concepts, methods, technologies, treatments, services, or interventions advance the field? If successful, what is the likely impact of the proposed study on the scientific field and on Veterans' healthcare?

Innovation: Does the application challenge existing paradigms, explore new concepts, methodologies, or technologies, or otherwise exhibit significant creativity? To what degree does the proposed study represent more than an incremental advance on the published literature?

Approach: How well do the logical reasoning, critical review of the literature, and preliminary data support the rationale and the feasibility of the project? Are the hypotheses, aims, experimental design, methods, and analyses (including statistics) well developed? Are potential problems, alternative strategies, and benchmarks for success presented?

Feasibility: Is there sufficient evidence to determine that the proposed studies can be successfully completed? If applicable, is there sufficient evidence for successful recruitment and enrollment of subjects? Can the required animal models or samples be attained? Can the proposed study be completed within the duration of the award?

Investigators: Do the PD/PI(s) and other key personnel have the expertise, experience, and record of accomplishments to enable successful completion of the proposed research? If applicable (Multiple PI/PD), how well are the efforts of the investigators and/or research teams integrated and is the collaboration synergistic or complementary? For Renewal applications, has the applicant been productive and shown research progress in the last funding period?

Multiple PD/PI Leadership Plan (if applicable): To what degree are the organizational plan, leadership approach, and roles and responsibilities of the PIs/PD appropriate with regard to expertise, resources, and commitment to ensure the completion of the project?

Environment: Do the scientific environment, facilities, and resources support the research requirements so as to enable the success of the project? Is there evidence of institutional support reflecting space, equipment, and other unique resources including availability of and access to populations adequate for the project proposed and/or to facilitate collaborative arrangements?

Ethical/Safety Issues: Are there any ethical, human subject, animal use, or biohazard concerns?

2. Other Considerations

In addition to the above criteria, the following additional instructions are provided to reviewers. These items will be considered; however, reviewers are instructed that these items should not influence their overall priority score.

Budget: Please indicate any specific comments you may have concerning the requested budget (amount and duration). Including overlap with other funded projects listed as “Other support” for any of the key personnel. For all years, determine whether all categories of the budget are appropriate and justified. Provide a rationale for each suggested modification in amount or duration of support.

Sharing Research Data: Comment on whether the Data Sharing Plan or the rationale for not sharing data is reasonable.

Resubmission (if applicable): Please indicate whether the applicant has responded to all or only some of the concerns raised in the previous Summary Statement and whether the responses are appropriate. Please comment on whether the application has been improved as a result of the revisions. Specific comments regarding the impact of revisions should be included, as appropriate, in the sections above for the individual review criteria.

Other Issues: Please identify any foreign/international studies, or studies involving children or the use of human fetal tissue or anything that derives from it. Additionally, identify any potential overlap issues with other funded studies.

3. Disapproved Applications

An application may be disapproved if the SRG determines that the proposed studies are unethical.

- Applications that are disapproved are not given a numerical score and may not be resubmitted.
- Studies disapproved for ethical considerations may not be carried out in VA space, with VA resources, even if the project is funded by another agency.

4. Appeals

The basis for an appeal and the procedure for submitting an appeal are detailed in the guidance document located at:

http://www.research.va.gov/services/shared_docs/merit_review_guidance_docs/appeal-process.doc

Section VI. Award Administration Information

1. Award Notices

After the peer review of the application is completed, the PD/PI will be able to access the Summary Statement via the NIH eRA [Commons](#). If the application is under consideration for funding, VA-ORD will request “Just-in-Time” information from the applicant

2. Administrative and National Policy Requirements

Research Integrity: VA-ORD is committed to the highest standards for the ethical conduct of research. Maintenance of high ethical standards requires that VAMCs and investigators applying for, and receiving, Merit Review Awards have appropriate procedures to preclude the occurrence of unethical research practices.

The PD/PI and others associated with the research must subscribe to accepted standards of rational experimental research design, accurate data recording, unbiased reporting of data, respect for the intellectual property of other investigators, adherence to established ethical codes, legal standards for the protection of human and animal subjects, and proper management of research funds as a condition of acceptance of the award.

Deliberate falsification or misrepresentation of research data will result in withdrawal of an application, possible suspension or termination of an Award, and potentially, suspension of the investigator’s eligibility to submit applications to BLR&D.

Acknowledging VA Research Support: By accepting a Merit Review Award, the PD/PI agrees to properly acknowledge VA affiliation and support in all public reports and presentations (see [VHA Handbook 1200.19](#)). Failure to acknowledge VA affiliation and support may result in termination of the Award.

Intellectual Property Rights: By accepting a Merit Review Award, the PD/PI agrees to comply with VA policies regarding intellectual property disclosure obligations and Federal Government ownership rights resulting from the proposed work (see [VHA Handbook 1200.18](#)).

Annual Reports: By accepting a Merit Review Award, the PD/PI agrees to complete an annual Federal-wide research performance progress report (RPPR) for the project. Information and instructions for RPPR can be found here: <http://www.research.va.gov/resources/RPPR.cfm>.

Section VII. Agency Contacts

We encourage scientific/programmatic inquiries concerning this funding opportunity and welcome the opportunity to answer questions from potential applicants.

1. Scientific/Research Contacts:

To ensure a timely response prior to submission, all questions concerning electronic submission should be submitted by appropriate Research and Development Office staff to the eRA mailbox at: rd-era@va.gov.

If the initial assignment to an R&D Service or SRG seems inappropriate, the local Research & Development Office may request reassignment on behalf of the PD/PI, only after initial review assignments have been completed.

Inquiries from the local Research & Development Office related to the review process should be directed to vhacoblcsrdrev@va.gov.

Applicants may contact the appropriate Scientific Review Officer (SRO) directly with questions specifically related to issues raised in the summary statement. SRO contact information for individual SRGs may be found at: http://www.research.va.gov/services/shared_docs/joint-merit-review-panels.pdf

A representative of the individual R&D Service should be involved in any other communications with VA-ORD.

2. Financial Management Contact:

Sara Clark at Sara.Clark@va.gov
